No. 956/48764. Madras, dated 20th February 1924.

From (Name) Captain E.W. Huddleston, CIE, CBE, RIM,

Presidency Port Officer, Madras,

To The Secretary to the Government of Madras,

Finance (Marine) Department.

Sir,

Mangalore - Oil installation on the Port lands.

I have the honour to forward herewith an application from the Standard Oil Company of New York, Madras, No.227 dated 8th December 1923, applying for a site at the port Mangalore, measuring 61'-0" x 110'-0" to build a minor bu oil installation togetner with a sketch of the si e and t correspondence connected therewith.

2. The Mangalore Landing and Shipping Fees Committee ha no objection to the proposal and suggest that the same for of lease as that sanctioned in G.O.No.1483, Revenue, dated 27th May 1908, be adopted. They also suggest that the ex rate of rent viz. 8 annas per mensem for 30' x 2' levied for other oil installations be charged for the Standard

Company

Company also, and that the amount be credited to the Mangalore Landing and Shipping Fund as the installation is for a marine purpose, being intended for the storage of case oil landed by sea as well as bulk oil by rail.

3. The Collector of South Kanara has no objection to the installation, provided that the Municipal drain which runs through the site applied for, is not interfered with and that the free flow of water is not obstructed. It will be observed from the correspondence that the Standard Oil Company intend building over the drain and consequently the drain will not be interfered with.

4. The Collector of Customs, Madras, has no objection to the proposal.

5. I agree with the views of the Landing and Shipping Fees Committee and recommend that Government may be pleased to sanction the lease to the Standard Oil Company of the site applied for in accordance with the terms expressed in the lease deed approved in G.O.No.1483, Revenue, dated 27th May 1908, and that the amount of rent be credited to the Mangalore Landing and Shipping Fund.

I have the honour to be,
Sir,
Your most obedient servant,

Captain, R.I.M.,
Presidency Port Officer.

SITE FOR MINOR INSTALLATION
AT MANGALORE.

The Presidency Port Officer,

Madras.

Sir,

For some time past, we have been trying to secure a plot of land at Mangalore on which to build a minor bulk oil installation having a storage capacity of less than 50,000 imperial gallons to comply with the Indian Petroleum Regulations. During our investigations, we have had our representatives interview the Port Officer at Mangalore with a view of reclaiming a plot of ground to the north of the present Burmah Oil Company's installation on the Mangalore foreshore and the building of our installation on that site.

Our representative ascertained that there is a reclamation scheme on foot for Mangalore Harbour, but was told that this scheme would not interfere with our proposed reclamation for a site, as Government could then very easily slightly alter the boundary of the reclamation scheme provided we did not ask for a plot of ground extending north of bench mark 1525.

We now have the honor to make formal application for the leasing of a plot of ground measuring 85 feet in length extending from bench mark 1575 immediately to the south of the Municipal drain to bench mark 1660, which would give us a clear space of 30 feet from the Burmah Oil Company's installation. As in the case of the Burmah Oil Company's and the Asiatic Petroleum Company's minor installations on the Mangalore foreshore, we understand that our site can only occupy 8 feet of the actual present bunder and that we would have to reclaim the balance of the width required by us from the present backwater area. We estimate that we require a plot of ground 45 feet wide for our installation; hence, we apply for permission to reclaim 37 feet of the present existing backwater area so as to give us a plot of ground measuring 45' x 85' on which we would build a minor installation actually occupying 41' x 69'-6" as per the sketch enclosed herewith.

Will you kindly advise us whether the required present existing property and the area which we wish to reclaim can be leased to us, and, if so, the annual rental Government would ask for the plot of land concerned measuring 85' x 45' after our reclamation is completed?

In explanation of the area to be reclaimed as shown on our ached sketch, we would advise that we were informed that the area to be reclaimed, according to the present scheme, was that bounded by the line X-Y-S, which could be easily altered to the area bounded by Z-Y-S if we apply for and secure the site covered by this application

We have the hono. to be, Sir
Yours faithfully
STANDARD OIL CO OF NEW YORK,

P/1.

Manager.

No 2
27 SEP 1923

Resubmitted to the Collector of Kanara with reference to his endorsement No. C. No. 3760-23 V-7 dated 24-6-23.

I have inspected the land. There is no objection to allow the company to reclaim land applied for. The municipality also has no objection to the assessment of the plot "subject to the condition that the drain not in any way interfered with and the free flow of water is not in the least obstructed. The drain referred to lies opposite the mud portion of plot to be reclaimed and it is a matter for consideration how the company will have building for their installation and at the same time allow the free flow of water from the drain to the river. In any case the land is required for a marine purpose as is evident from the Port officers letter dated 3.9.23 copy of which is in the file, and its disposal rests with the Collector on the marine department. The condition laid down by the municipality may be insisted on.

No.2271 December 8, 1923.

SITE FOR OIL INSTALLATION
MANGALORE.

The Port Officer,

Mangalore.

Dear Sir,

After receiving your letter No.34/239M of August 29th 1922, approving of our application for a site on the Mangalore foreshore for a plot of land measuring 45' x 85', we submitted a ground plan of the installation which we proposed to erect to our Calcutta principals for approval.

The quantity of oil which we desire to store at Mangalore will equal the maximum amount which we are permitted to store in a minor installation under Government Petroleum Regulations . As such the Chief Inspector of Explosives for India has suggested that two distinct installations be constructed providing we can obtain land for the same.

We therefore have the honour to apply for a revision of our original application for a site measuring 45' x 85' which application has been approved, and to ask that we be granted a site measuring 61'-0" x 110'-0".Since we shall have to leave an open space of 30' between the B.O.C., Installation and our proposed Installation, the northern boundary of our proposed installation will be 140' distant from the northern wall of the B.O.C. as per the sketch attached. On this sketch the additional land which we require is shown in blue.

As the Chief Inspector of Explosives for India has approved of the Installation, which we now propose to construct, we would greatly appreciate it if you will give this matter your early consideration.

Yours truly,
STANDARD OIL CO OF NEW YORK.

Manager.

(Designation) Collector of South Kanara.

To The Secretary to the Government of Madras,

Revenue Department.

Through the Board of Revenue, Land Revenue and Settlement, Madras.

Sir,

The letter from the Presidency Port Officer and its enclosures are submitted with the following remarks:-

Paragraph 1(1).- The rent may be fixed at ------- Rs.194-11-6 for 745 square yards. In 1908, five hundred square yards of port land in the immediate vicinity of the present plot were leased to Messrs. Best & Co. for a period of 49 years at Rs.43-9-0 per annum. Since then the rent value of the land has increased considerably and the present rent may be fixed equitably at three times the rent charged in 1908.

Paragraph 1(2).- The period for which the lease is to run may be fixed as 49 years as was done in the -- case of Messrs. Best & Co.

Paragraph 1(3).- As the office of the Company - is in Madras, I suggest that to save delay the Board may ask the Company whether it agrees to a lease on terms -- similar to those on which a lease was granted to ------- Messrs. Best & Co.

Paragraph 2.- The amount will be credited to -- the Landing and Shipping Dues funds under the Provincial Revenues as the plot is within the Port limits.

Your obedient servant,

For Collector.

No.7041. May 21, 1924.

MANGALORE INSTALLATIONS.

M.E. Couchman Esq., I.C.S.,
Commissioner of Land Revenue,
Land Revenue & Settlement Department,
Chepauk, Madras.

S i r,

We have the honor to acknowledge with thanks the receipt of your letter No.B.1229-24-1 of May 14, 1924, enclosing a specimen form of the lease entered into between the Government of Madras and Messrs. Best & Co for the land at present occupied by the Asiatic Petroleum Company Ltd., on the foreshore at Mangalore.

In reply to your enquiry, we have pleasure in advising you that our Company is willing to accept a lease for the plot of ground applied for by us at Mangalore on terms similar to those covered by the specimen lease referred to above, subject to the payment of an annual rental of Rs.194-11-6 as stipulated in your letter. Furthermore, we are also willing to bear the charges in connection with the preparation and execution of the lease concerned.

May we respectfully point out that in perusing the specimen lease referred to above, we find that Messrs. Best & Co's lease contains the following phrases:

(1) "a bulk petroleum installation .....

(2) "construction of the 'said installation' ....."

(3) "the said installation .....

(4) "removing the said installation ....."

We call the foregoing specific terms to your attention in order that they may be slightly altered to cover our case when the first draft lease for us is prepared, seeing that we will, as pointed out in our letter No.2271 of December 8, 1923, addressed to the Collector of Mangalore, at the suggestion of the Chief Inspector of Explosives, India, erect two distinct installations for which two separate and distinct licenses will be applied for and secured by us under the Petroleum Rules, i.e., one on Form A for non-dangerous petroleum otherwise than in bulk and one on Form E for the storage of non-dangerous petroleum in a minor bulk oil installation.

May we suggest the following changes in the phrases shown against items (1), (2), (3), and (4) above:

(1) "a packed oil installation and a minor bulk oil installation ..."

(2) "construction of the 'said installations'....."

(3) "the said installations ....."

(4) "removing the said installations ....."

We sincerely trust that now that we have agreed to your proposals that the preparation and execution of our lease will be dealt with as soon as possible, inasmuch as we are extremely desirous of completing the erection of our installations at Mangalore before the end of this year.

We have the ~~honor~~ to be, Sir,
Yours faithfully,
STANDARD OIL CO OF NEW YORK,

SDT/l.

Manager.

Finance (Marine) Dept

Mangalore - Oil Installation - Standard Oil Co. of New York - Lease of land

cf. C 251 G/24 - From the Presidency Port Officer No 956/487 G.L dt 28.2

The P.P.O. forwards an application from the Standard Oil Co. of New York for the lease to them of a site for erecting an oil installation in the foreshore of the port of Mangalore measuring 61 feet by 110 feet of which 53 x 110 will have to be reclaimed from the backwaters. The P.P.C recommends the lease of the land on the same terms as expressed in the lease deed approved in G.O. 1483 Rev. dt 27.5.1908.

2. The Collector of S. Kanara, and the Chairman, Municipal Council, Mangalore, have no objection to the lease of the land provided the drain which runs through the site is not interfered with and free flow of water not obstructed. The Company propose to build over the drain. The Collector of Customs is reported to have no objection to the proposal and the Company state that the Chief Inspector of Explosives has also approved of the installation.

3. The L. & S. Fees Committee, Mangalore

approves the plan, but it suggests that the annual [illegible] credited to the L.+S. Fund and not to Provincial revenues as it considers that the oil to be stored there will be sea-borne. Reference is, however, solicited to the copy of the Port Officer's letter No. 34/162 C & 3.9.23 stating that the installation is for storing case oil landed by sea as well as bulk oil by rail. Further all port lands in this Presy, with the exception of the lands held by the Madras Harbour Trust Board, vest in the Secretary of State. In G.O. 583 Marine dt 16-7-1901, however, the rent was ordered to be paid to the Port Conservator.

pr 21 ct.

pr 11 ct

(H) pr 10 of notes pr 6 c

(B)

3. The remarks of the Revenue Deptt may be invited on this point as to whether the rent should be credited to the Provl. revenues or the L. + S Fund. Of the latter, Fiscal orders sanctioning the lease should also issue in the Rev. Deptt

It certainly should go to the L & S. Fund

It might perhaps go to the Port Fund, but I think Provl. revenues should get it.

No. 1483, REVENUE, 27TH MAY 1908.

IV

Letter—from SUTHERLAND ORR, Esq., Government Solicitor, Madras.
To—the Secretary to Government, Revenue Department.
Dated—Madras, the 6th May 1908.
No.—372.

Lease to Messrs. Best & Co.

I have the honour to acknowledge the receipt of G.O., No. 1000, Revenue dated the 7th ultimo, with enclosures returned herewith.

2. I have revised the draft lease in accordance with the instructions of Government and enclose herewith a fair copy of same for approval by Government.

3. As I understand that Messrs. Best & Co. are acting for the Asiatic Petroleum Company (Limited) in this matter I have made out the lease in the name of such company.

4. I presume from the above G.O., No. 1000, that the lessee must reclaim the land and that the reference in Mr. J. M. Ross's letter to Government B.P., No. 3*a*/329, dated the 24th ultimo, to reclamation by the Government is a mistake.

5. I understand that the lessee has not yet taken possession of the land. The date of taking possession will have to be inserted in the blanks left in the draft.

6. The plan returned herewith so far as it relates to the installation will have to be formally approved by Government as provided in the lease.

7. It will be necessary to have a separate plan of the land prepared and annexed to the lease.

(Annexure)

~~ENCLOSURE.~~

THIS INDENTURE made the day of ~~1908~~ between THE RIGHT HONORABLE THE SECRETARY OF STATE ~~in~~ *for* INDIA IN COUNCIL (hereinafter called the Lessor which expression where the context so admits shall include his successors in office and assigns, of the one part and THE ~~ASIATIC PETROLEUM COMPANY, LIMITED~~ (hereinafter called "the Lessee" which expression where the context so admits shall include its successors and assigns) of the other part

***

Famine report for the month of February 1924 and your No. 611-1-g/24 dated 15-3-19 4.

***

The test work at Kolur, Be uk, which was opened on 7-1-24, was converted into one of relief with effect from 2-2-1924. A Hospital for in-patients was not established for he reason that the Head Quarter Hospital is near and there is a convenient motor bus service: cases requiring operation etc., can easily be taken to the Head quarter Hospital, Bellary.

4 The District Medical Officer, visited the camp on 11-2-24 and issued necessary oral and written instructions to the sub-assistant surgeon in charge regarding periodical hankinization of water supply, supervision in respect of conservancy and sanitary arrangements and treatment of the sick. Recommended to the Collector the necessity for a couple of emergency sheds 10' x 10' for infectious diseases cases and they were accordingly put up. A kitchen was opened to feed the dependents of workers.

5 The sub assistant surgeon in charge hankinised all the wells. He daily goes to he gangs and inspects them both morning and evenin with he portable medicine chest. He has been supplied with medicines, ist ments necessary for the treat ent of

of sick. He treated 444 cases during the month, vide list attached.

4| There was no illness or disease or death relieved to be due to want of food. No epidemic: No emaciation among the people No scurvy. The general health of the coolies was satisfactory.

5| Steps ~~were~~ are being taken to vaccinate the unprotected children of workers.

6| The strength of the camp on the last day of the month was as follows:-

Total of all relieved		1196.	
	M	W	C
No. gratuitiously relieved	2	6	198
Weekly gang.		29	
Kitchen.		85	

7| A second relief work was started at Allipuram Bellary Taluk, on 21-2-1924 and a sub assistant surgeon was posted to it. As there was no sufficient number of coolies, the relief work was closed on 23-2-1924.
